

MS 700

The Cost Effective Way To Sweep

Klenco MS 700 Mechanical Sweeper

replaces the tiresome use of manual brooms with effortless mechanical sweeping. It eliminates the problem of dust clouds caused by conventional sweeping methods, while its innovative feature of forward and backward sweeping enables cleaning closer to wall edges and difficult corners. With increased efficiency in sweeping, the MS 700 improves performance and saves labour.

Special Features

- Sweeper moves forward and backward for effective sweeping.
- Adjustable sweeping brush height to suit different floor conditions.
- Side brush enhances sweeping efficiency at wall edges.
- Dirt bins easily removable for emptying of debris
- Foldable handle enables easy manoeuvring and storage.
- Non motorized mechanism for virtually zero maintenance

MS700 is suitable for use in areas like driveways, warehouses, car parks, petrol stations with hard floors such as concrete, asphalt, tar and other smooth or rough surfaces.

<i>Technical Specifications</i>		<i>MS700</i>
Sweeping Capacity	m/h	1820
Total sweeping width	mm	700
Dirt bin capacity	L	Front : 30 / Rear : 8
Dimensions (L x W x H)	cm	95 x 85 x 97
Weight	kg	28
